

SHAPING HEALTH AND WELLNESS

Since 1951

VITAMINS & THEIR FORMS

Established in 1951, Fermenta Biotech Limited (Fermenta) is a pioneer in Vitamin D3 manufacturing and an emerging player in the nutraceutical segment, catering to clientele across the globe. The manufacturing facilities in Kullu and Dahej are certified by global accreditations.

Fermenta's state-of-the-art premix facility in Kullu is dedicated to manufacturing high-quality Vitamin Mineral Premixes. This facility is equipped with advanced technology and adheres to stringent quality standards to ensure the delivery of superior products. Complementing Fermenta's Kullu facility is the exclusive R&D centre in Thane, which drives innovation and new product development. The Thane centre is instrumental in supporting clients with cutting-edge solutions and formulations, reflecting the commitment to excellence and continuous improvement in the nutraceutical industry.
